YOUR BRASS SUPPLIER IN NORTH AMERICA

FRANCONIA INDUSTRIES

Franconia Industries is the sales organization of Diehl Brass Solutions in North America. With over fifty years of experience, we are your long-term partner providing semi-finished brass solutions such as solid and hollow rods, tubes, and profiles made of high-quality brass.

Franconia's customers successfully use our products in applications such as, but not limited to plumbing, heating, automotive, and electronics.

DIEHL Brass Solutions

Diehl Brass Solutions is Germany's largest brass mill and one of the major European producers of semi-finished products with an annual production capacity of 300 million pounds.

As the world's biggest producer of high-tensile brass semi-finished products, the Diehl Brass Solutions supplies the market with more than sixty different alloys. The alloy portfolio includes brasses produced to ASTM standards in additions to innovative alloys for highly complex technical applications.
