

FUTURE CABIN CONCEPT

WE REALIZE OUR CUSTOMERS'
VISIONS OF THE FUTURE

CHARACTERISTICS

Our vision: A future cabin that takes the interaction between cabin and user to a new level, utilizes AI with all its advantages, and this opens up new possibilities. We continue to develop the visionary design of the Diehl cabin of today, considering the technologies and construction methods of the future. Always with focus on sustainability.

BENEFITS

- Clever digital solutions
- More possibilities in the area of branding
- Attractive total costs
- Focus on sustainability
- Unique design story for the customer
